Zijin Wang

Email address：wangzijin516@live.com; wangzijin516@smail.swufe.edu.cn

Personal homepage：zjinwang.com

Education

- 2021.12 – 2022.12   Humboldt University in Berlin, Germany, visiting scholar,
  funded by the China Scholarship Council
- 2017.09 – present   Southwestern University of Finance and Economics, Master and Ph.D. degree candidate in
  Mathematical Finance
  (Defense schedule: 2024 November)
- 2013.09 - 2017.06   Southwestern University of Finance and Economics
  Bachelor of Science + Bachelor of Economics,   Mathematics and Applied Mathematics

Research Interest

- Financial risk management: semiparameter volatility model, tail risk, distance to default
- Asset pricing: cryptocurrency
- High-dimensional time series, high-dimensional network
- Deep learning application in financial time series

Research paper

- Volatility Cluster and Its Implications in Value at Risk (joint with Peimin Chen, Chunchi Wu, Peng Liu), *International Review of Finance and Economics,* 2024, 94(2)
  MATLAB codes: wzj5163/Cluster-partition-volatility (github)
- Network Portfolio and its Estimation under High-dimensionality (joint with Rui Ren, Wolfgang Karl Härdle, Wei Biao Wu), R&R in *Journal of Business and Economic Statistics*
  R codes：wzj5163/Network-portfolio (github)
- Risk Premia in the Bitcoin Market (joint with Caio Almeida, Maria Grith, Ratmir Miftachov), working paper
  Python & MATLAB codes：wzj5163/CDI_EPK_BTC (github)
- GEV-based Distance to Default (joint with Peimin Chen, Chunchi Wu), working paper
  MATLAB codes：wzj5163/Distance_to_default (github)
- Firms' environmental performance and stock returns long-term volatility level and connectedness. Evidence from international comparison (joint with Gianluca Vagnani, Jinhuan Tian, Yan Dong), working paper
- Markovian Dynamic Correlation (joint with Gianluca Vagnani) Working Paper;
- Regime-Dependent Multi-Task Learning for Risk-Adjust Portfolio (joint with Junzo Watada, Yicheng Wei, working paper)

Conference report

- 2024   The 19th International Symposium on Management Engineering (ISME 2024), Matsue, Japan
  selected paper   "Regime-Dependent Multi-Task Learning for Risk-Adjust Portfolio"
  Conference webpage: ISME2024
- 2024   16th Annual SoFiE Meeting, Rio de Janeiro, Brazil
  report paper   "Risk Premia in the Bitcoin Market"

Conference webpage: [SOFIE2024](#)
- 2022   STAT of ML, Prague, Czech Republic
  report paper "Network Portfolio and its Estimation under High-dimensionality"
  Conference webpage: [STAT of ML 2022](#)
- 2022   ML Approaches Finance and Management, Berlin, Germany
  report paper "Network Portfolio and its Estimation under High-dimensionality"
  Conference webpage: [ML approaches Finance and Management](#)
- 2022   Haindorf Seminar, Hainice, Czech Republic
  Report paper "Volatility Cluster and Its Implications in Value at Risk and Option Pricing"
  Conference webpage: [Haindorf Seminar 2022](#)
- 2019   The 2nd National Mathematical Finance Doctoral Forum, Chengdu, China
  report paper "Volatility Cluster and Its Implications in Value at Risk and Option Pricing"

Funded academic projects

- 2020   Central Universities Basic Research Fund Doctoral Research Project (JBK2007195, completed), as project leader (10,000 RMB)
  Project title: Volatility Cluster and Its Implications in Value at Risk and Option Pricing
- 2016   The 13th Undergraduate Research Innovation Project of Southwestern University of Finance and Economics
  Project title: Research on the influencing mechanism of second-child gender preference in Chinese families from a micro perspective—Empirical analysis based on CFPS data (completed with A-level)

Working experience

2023.12–2024.03 China Post & Capital Fund Management Co., Ltd   Quantitative Intern

- Machine learning investment strategies and quantitative fund selection strategies
- Asset allocation and factor selection

Teaching experience

- Teaching Assistant: Analysis (6 semesters), Algebra (4 semesters), Algebra in English (2 semesters), Analytical Geometry, Probability Theory and Mathematical Statistics (1 semester)
- Online courses
  Graph theory minimum spanning tree and its applications: [Minimum Spanning Tree | Quantinar](#)
  Network Portfolio: [Network Portfolio | Quantinar](#)

Awards

- 2019   Special PhD student scholarship (top 30)
- 2019   2019 Second Prize for Thesis at the Second National Mathematical Finance Doctoral Forum
- 2018   College Student Comprehensive Quality A-Level Certificate
- 2017   Outstanding Graduates of Southwestern University of Finance and Economics
- 2015   National Second Prize in the National Undergraduate Mathematical Modeling Competition

---

Miscellaneous

- Programming and Software:
  - Proficient: MATLAB, R, Python, LaTeX, Gephi, ffmpeg
  - Intermediate: SPSS, Stata, SAS

- Language:
    - English: proficiency, IELTS 6.5, TOEFL 85
    - Chinese: mother tongue
    - German: beginner
